

TEiC

A BABCOCK POWER INC. SUBSIDIARY

COMPANY OVERVIEW

TEiC Construction Services, a division of Babcock Power Services, a Babcock Power Inc.® company, was formed through a strategic merger of two of Babcock's previous companies, TEi Construction Services and TEi Services.

The merger into TEiC Construction Services underscores the company's on-going commitment to safety, quality, on-time completion, and overall customer satisfaction—whether for planned services or in unexpected, emergency situations—that strengthens Babcock's global reputation for exceptional service to the power industry.

TEiC CONSTRUCTION SERVICES

Under the TEiC Construction Services umbrella, the company leads the market for direct-hire, on-site construction services for the installation, repair, alteration, and maintenance of boilers and boiler-related equipment. Serving clients in a wide variety of industries, including power generation, petrochemical, chemical, steel, pulp & paper, refuse, and industrial processing, TEiC has adopted an integrated management approach for all projects, whether turnkey or labor-only. This enables effective coordination of all facets of every project, including planning and procurement, tooling, fabrication, installation, and commissioning—all backed by customer service that is second to none.

TEIC HEAT EXCHANGER SERVICES

TEiC Heat Exchanger Services (formerly TEi Services), draws on its 75-year history to provide expertise in the design and manufacture of condensers, feedwater heaters and heat exchangers, and by maintaining a team of superior, fully-trained and certified maintenance personnel. In addition, this segment has code-certified welders and skilled technicians who handle a wide range of services for all heat transfer equipment, regardless of make or model.

TEiC Heat Exchanger Services offers emergency repair services that are unparalleled for quick response time and dependable performance. Our skilled technicians are available 24 hours/day, 7 days/week and 365 days/year to serve all your emergency services needs.

OUTAGE SERVICES

Get back up and running with TEiC Construction Services. For planned and unplanned outages, TEiC's trained and certified teams are maintenance and repair specialists for boilers and related equipment. – one of the few contractors that can handle all phases of your outage. Outage services include:

LONG TERM MAINTENANCE

TEiC Construction Services Inc., has extensive experience in plant maintenance throughout many industries. We provide on-site crews either full-time or on an emergency basis, whether stand-alone, or supplemental to an existing maintenance crew. Partnering with clients allows us to work directly with their maintenance personnel in meeting long-term maintenance goals, while helping them achieve reductions in plant downtime and unplanned shutdowns.

NEW EQUIPMENT INSTALLATION

TEiC Construction Services Inc., is your best choice for installation of new equipment. Because of our wide experience base, we can install virtually any type of OEM equipment, including boilers, scrubbers, SCRs, precipitators, and HRSGs. This range of knowledge and expertise allows our customers to receive superior installations for a wide range of equipment from a single contractor, with the confidence that their equipment will be installed properly at the outset.
